PROFESSIONAL SUMMARY

Full Stack Developer and B.Tech Computer Science student specializing in web development, competitive programming, and scalable application design. Skilled in MERN stack (MongoDB, Express.js, React.js, Node.js), RESTful API development, real-time communication (WebRTC, Socket.IO), and Agile practices. Proven record of top coding contest achievements and 1000+ algorithmic problem solutions across global platforms.

CORE SKILLS

Programming Languages	C, C++, Python (Basic), JavaScript (ES6+), TypeScript, SQL/MySQL
Frameworks & Libraries	React.js, Node.js, Express.js, Tailwind CSS, Mantine, Tabler IO, WebRTC, Socket.IO
Developer Tools	Git, GitHub, Postman, MongoDB, SQL Server, EasyInvoice, Vercel, Render
Technical Concepts	Data Structures & Algorithms, Object-Oriented Design, RESTful APIs, Responsive Web Design, Software Engineering

EXPERIENCE & LEADERSHIP ROLES

AlmaMete Info Tech — Full Stack Developer Intern (Aug 2025 – Present)

- Developing a B2B web platform using the MERN stack (MongoDB, Express.js, React, Node.js).
- Implementing features for user management, client onboarding, and secure data processing.
- Optimizing application performance and scalability to support production-level workloads.
- Building modular components for buyer, seller, and admin roles with role-based access control.

Enigma Programming Club — Technical Head (Dec 2023 – Present)

- Organized coding contests and technical events with 500+ participants, boosting student engagement.
- Created competitive programming challenges and quizzes for flagship events such as **Turing Test 2.0** and **Battle of Brains**.
- Led technical strategy and team collaboration to strengthen programming culture across campus.

PROJECTS

DevTinder   GitHub

- Built a developer networking platform with profiles, connection requests, and collaboration tools.
- Created secure REST APIs with JWT authentication and integrated real-time messaging using WebRTC and Socket.IO.
- Achieved successful testing with 50+ active users in real-time.

Portfolio Website   Live Link — GitHub

- Designed and deployed a responsive portfolio using TypeScript, ReactJS, Mantine, Tabler IO, and Tailwind CSS.
- Showcased professional skills and projects in a modern, mobile-friendly layout.
- Enhanced UI/UX with reusable components and optimized performance.

EDUCATION

2022 – 2026   B.Tech in Computer Science and Engineering, ABES Engineering College   (GPA: 7.85)
